

Armstrong GOLD™ Maple

Acer rubrum 'JFS-KW78'

Slender spires of rich green leaves turn to bright golden orange in autumn. Narrow, tightly columnar form brings beauty, utility, and a strongly vertical design element to streetscapes and landscapes where space is at a premium.

Selected from an evaluation of hundreds of seedlings of Armstrong Maple, its brighter foliage color, greater foliage density and compact, less leggy growth habit recommend Armstrong Gold® Maple over its successful and widely planted parent.
