

Homegrown fruits promote healthy lifestyle

There's nothing much fresher and more healthy than a big basket of homegrown fruit. That's why we partner with Dave Wilson Nursery to bring you the finest quality and assortment of fruit trees for your garden center and landscape customers. In early spring, we establish a wide assortment of Wilson's budded, field-grown bare root fruit trees in #7 containers. Small enough to be portable and affordable, these trees are big enough to begin producing fruit soon after they are planted. They are the perfect size for garden centers sales.

For more information on our fruit tree line, go to <http://www.jfschmidt.com/fruit>

Elephant Heart Plum

Large, heart-shaped fruits are sweet and juicy and ripen over a long period of a month or more. Firm red flesh is covered by smooth, dark reddish-purple skin. Santa Rosa is a favorite pollinizer of this hardy, heavy bearing tree that performs best in Zones 5-9. Chilling requirement is 500 or fewer hours below 45°F.
