

**Colonial Spirit® Elm** represents the resilience and persistence of our country's founders by growing strong and healthy despite the presence of Dutch Elm Disease that decimated our native elm populations. Arching branches of this symmetrically vase shaped tree broaden with age to reveal a classic American Elm shape.

Branch structure is strong and manageable in both the nursery and the landscape, where it may grow to a height and spread of 65' x 50' as it reaches maturity. Selected by the historic Princeton Nurseries of New Jersey, it has proven tolerant by surviving controlled testing. Hardiness is USDA Zone 4.
