

Champion's Gold™ Dogwood (*Cornus kousa* 'Losely' PAF) is a tree of many colors. Leaves emerge green in spring and are accented by handsome white flowers. By mid-summer, foliage exposed to direct sun takes on a bright yellow hue, creating an overall multi-colored effect. As summer progresses, the yellow tones spread and intensify to create a variegated yellow and green effect. Autumn leaves are bright orange-red. Height and spread is approximately 20' x 20'.
