Pink Cascade[®]

flowering cherry

Prunus 'NCPH1' PP 27579

A fragrant cascade of bright pink, bell-shaped flowers smothers the branches of Pink Cascade[®] Cherry in spring. Reminiscent in form and foliage of the popular white-blooming Snow Fountains[®] Cherry, this new weeping tree features dark green, heat-tolerant, disease-resistant foliage that turns bright orange-red in autumn. Growers will appreciate its vigor and ease of care as it matures to a height and spread of approximately 12' x 12'.
