

Pink Cascade® flowering cherry

Remarkable fall color is one more reason to fall in love with Pink Cascade® Cherry. It's an all-season beauty that pleases year-round. Once the long-lasting, bright orange-red leaves fall, its gracefully weeping branches etch their dark outline against winter skies.

Come spring, branches are smothered in bright pink flowers that attract hummingbirds and other pollinators. Dark green summer foliage is heat resistant, as proven by its North Carolina origin. Trials in western Oregon show it to have good resistance to typical cherry foliage diseases.
