

Cover story features UtiliTrees™

City Sprite® Zelkova, a rising star of our UtiliTrees™ product line, made the cover of the December edition of Digger Magazine. Thanks to its growing popularity with customers and specifiers, it has also achieved “sold out” status. However, we have ample numbers of other top-performing, small-stature trees featured in the cover article, *Growing Under the Lines*, authored by Elizabeth Petersen.

Snow Charm® Snowbell is given a “thumbs-up” by Dr. Eric Wiseman of Virginia Tech University, who has been performance trialing it and other UtiliTrees™ cultivars for many years. Red Barron Crabapple, Ivory Silk® Lilac and Venus® Dogwood also rank high on his list, and are currently available for your purchase.

Among the trees highlighted in the article that are currently available: Cinnamon Girl™ Maple, Vanessa Parrotia and Persian Spire™ Parrotia.
