

## Homegrown fruits promote healthy lifestyle

There's nothing much fresher and more healthy than a big basket of homegrown fruit. That's why we partner with Dave Wilson Nursery to bring you the finest quality and assortment of fruit trees for your garden center and landscape customers. In early spring, we establish a wide assortment of Wilson's budded, field-grown bare root fruit trees in #7 containers. Small enough to be portable and affordable, these trees are big enough to begin producing fruit soon after they are planted. They are the perfect size for garden centers sales.

For more information on our fruit tree line, go to <http://www.jfschmidt.com/fruit>

### Emerald Beaut Plum

Enjoy great flavor for months with this plump, juicy, sweet freestone plum. Fruits ripen late in the season and continue to sweeten (while remaining crisp and crunchy) as they hold on the tree for as long as two months. Greenish yellow to orange flesh rates high in blind test fruit tastings. Flavor King Pluot® is a favorite pollinizer.
