

# Streetspire® Oak

*Quercus x bimundorum* 'JFS-KW1QX'

**Zone:** 4  
**Height:** 45'  
**Spread:** 14'  
**Shape:** Narrow, columnar  
**Foliage:** Dark green  
**Fall Color:** Rusty red

Dark green leaves of this narrowly columnar tree are mildew resistant. Turning red in autumn, they fall to reveal stiffly upright branches. Similar to Crimson Spire™, but does not hold brown foliage through the winter. Wide crotch angles and short upsweeping branches create a storm resistant structure.
