

Wireless® Zelkova

Zelkova serrata 'Schmidtlow'

Zone: 5
Height: 24'
Spread: 36'
Shape: Broadly spreading vase
Foliage: Medium green
Fall Color: Red

Selected for its unusually low height and broad, horizontally spreading growth habit, its vivid red fall color is a surprisingly bright bonus feature. As its name suggests, this cultivar is a good fit for street plantings beneath utility lines. Like the species, it is a trustworthy performer in urban settings.
