

Glenleven Linden

Tilia × flavescens 'Glenleven'

Zone: 3
Height: 50'
Spread: 30'
Shape: Pyramidal
Foliage: Medium green
Fall Color: Yellow

Glenleven is very similar to a *Tilia cordata*, but is faster growing and is now recognized as a hybrid. It produces a pyramidal form that matures to a greater height, and is a bit more open and informal than Greenspire®.
