

Red Dragon Japanese Maple

Acer palmatum dissectum 'Red Dragon'

Zone: 5
Height: 6'
Spread: 8'
Shape: Weeping, compact
Foliage: Laceleaf, burgundy red
Fall Color: Scarlet red

Delicate, deeply dissected leaves emerge scarlet in spring and mature to a rich burgundy shade. Even in late summer, its heat-resistant foliage is darker and more purplish red than that of Crimson Queen. An eruption of scarlet red foliage flows along its gracefully cascading branches in autumn. Vigorous and compact.
