*Liquidambar styraciflua* 'Slender Silhouette'

**Zone:** 5  
**Height:** 60'  
**Spread:** 8'  
**Shape:** Tightly columnar  
**Foliage:** Dark green  
**Fall Color:** Orange to burgundy  
**Fruit:** Sparse

This fastigate tree grows quickly to form a tall, strikingly narrow column. One of the tightest and narrowest trees available, it is easier to grow than most. Those grown as hedges quickly become effective visual screens, while single specimens mature to become landscape exclamation points.
