

Wichita Osage Orange

Maclura pomifera 'Wichita'

Zone: 5
Height: 35'
Spread: 35'
Shape: Upright
spreading,
rounded
Foliage: Glossy
dark green
Fall Color: Yellow
Fruit: Fruitless

Discovered near
Wichita, KS, this
adaptable urban tree
thrives in soil condi-
tions ranging from
acid to alkaline and
wet to dry. Its strong
wood and branch
attachments prevent
storm damage.
Resistant to diseas-
es, insect pests and
deer. Nursery grown
trees may have a
few thorns when
young, but become
thornless with age.
