

Choice City Select® BulletProof™ Oak

Quercus macrocarpa 'PTimB1S'

Zone: 4
Height: 65'
Spread: 30'
Shape: Upright
oval
Foliage: Dark
green

A Plant Select® introduction, this Bur Oak was discovered by Tim Buchanan in Fort Collins, Colorado. After 15 years of monitoring Tim declared the tree resistant to the Bullet Gall Wasp a common pest of many Bur Oaks. It forms a large stately tree with a strong central leader and uniform symmetry. Adaptable to a wide range of soils and moderate drought tolerance.
