

Frost Blush™ Magnolia

Magnolia x loebneri 'JFS GMorgenson2'

Zone: 4
Height: 15'
Spread: 10'
Shape: Rounded oval
Foliage: Glossy dark green
Fall Color: Golden yellow
Flower: White with pink blush

This Star Magnolia was discovered and selected by Greg Morgenson for its exceptional hardiness. Tolerating temperatures as low as -38 °F multiple times without any signs of damage. Can be grown as a multi-stem or single stemmed small tree reaching 20–25 feet eventually. Foliage emerges with a bronze tinge and matures to a glossy dark green. Flowers are 4-5 inches in diameter, white with a basal pink blush.
