

Korean Maple

Acer pseudosieboldianum

Zone: 4
Height: 22'
Spread: 18'
Shape: Upright to upright spreading
Foliage: Green
Fall Color: Yellow-orange to bright red

Very cold hardy yet delicate in appearance, this close relative of Japanese maple brings an oriental elegance to the northern garden. A little more upright than Japanese maple, it displays small reddish-purple flowers in spring and brightly colored foliage in autumn.
